Description Regulation of persons who sell dogs or operate animal shelters or animal control facilities, granting rulemaking authority, making an appropriation, and providing a penalty						

Assumptions Used in Arriving at Fiscal Estimate

The proposed bill authorizes DATCP to license and inspect dog breeding facilities that sell 25 or more dogs per year.

There is no real data on how many breeders are actually operating in the state, nor the scale of their operations. In order to create the draft fiscal impact we reviewed pet facility regulations from Nebraska and Pennsylvania. These programs were chosen because the demographics are applicable to Wisconsin. We used information from Pennsylvania and Nebraska in order to draw assumptions on what WI Dog Breeder numbers and dispersion across categories might look like.

The department estimates that there are approximately 1000 dog breeding operations that will license under this bill. These establishments are estimated to fall into the following categories:

Category Est. number 25-49 405 50-99 170 100-249 150 250+ 130 Nonprofit 145 Out of State Dealers 17

The department also estimates that 73,250 Certificates of Veterinarian Inspection will be completed to move dogs within the state. Intra state CVIs cost \$0.60 each.

License fees and CVI revenue to support this program are estimated to generate \$514,700 annually.

The department is required to conduct a pre licensure inspection and inspect these facilities once every two years. For purposes of this fiscal estimate the department is estimating 660 total annual inspections, (includes re-inspections, complaint and routine inspections) and 50 compliance actions annually on licenses. (Each inspection is estimated to average 10 hours, which includes all paperwork, facility time, and travel time. Compliance actions are estimated at 30 hours each.) These activities are estimated to require 4.0 FTE field staff.

The department will require 1.0 FTE administrative personnel to handle licensing, process all documentation affecting the licensed facilities, tracking the assignment of inspections in response to complaint calls and 1.0 FTE to oversee the staff and implement the program, coordinate program activities and serve as a liaison with the industry.

Total requirement is 6.0 FTE to license, inspect and enforce the program as set forth in the bill. Annual expenses for staff and supplies are estimated \$510,600.

Long-Range Fiscal Implications
